

River and Boat Booking

Basic guidance and ground rules:

- 1) You **MUST** use the white-board for recording outings as they happen.
- 2) You cannot book more than 7 days in advance.
- 3) You need to book both a boat and a river slot. This effectively means making two bookings per session.
- 4) If at all possible, please do make an on-line booking for an outing where you turn up on spec at the beginning of the session. This then helps others who might be looking for late availability – if we all take the trouble to do this then we'll all benefit.
- 5) River slots are limited to 90 minutes. If you want a double session then please book two consecutive slots. Do not book across the normal session boundaries, to maximise resource usage for everyone.
- 6) The system does not impose any boat permission rules. You are still expected to observe the latest Rowing Captains' published permissions as published on our website.
- 7) The system administrators are able to schedule bookings before the 7-day limit for events like Learn-to-Row courses and river closures.
- 8) Technical support is available from Kate Rider or Tanya Podinovskaia. If you have an issue, please get in touch and we'll try to answer ASAP.
